

Who Should Attend

This programme is designed for those personnel responsible for operating the forward tipping dumper in the workplace.

Course Aim and Content

On completion of the course operators will be able to list their responsibilities under the relevant legislation and demonstrate how to use the equipment safely and efficiently.

- Health and Safety at Work Act 1974
- Management of the Health and Safety at Work Regulations
- Provision and Use of Work Equipment Regulations 1998
- What are the hazards
- Risk Assessment and Safe System of Work
- Understanding the equipment used
- Load limits and stability
- Vehicle movement
- Ascending and descending inclines
- Transporting loads
- Discharging loads
- Pre-Use Checks
- Fault reporting procedures
- Theoretical Examination
- Pre-Use Test
- Practical Test of Basic Operating Procedures

Training and Testing Methods

A high proportion of both theory and practical exercises, this is followed by three tests of theory knowledge, pre-use test and practical demonstrations.
